

Dreame Tasti™ AF30

Tender roast & No flip & Steam air fryer

The air fryer combines air frying, steam frying, grilling, reheating, baking, and baking functions 6-in-1, providing healthier food with less oil; Dual heat source, dual engine 360 degree thermal circulation heating without flipping, intelligent steam penetration hydration for a crisper and more tender taste, 7L suitable for families with 3-5 people capacity, fruit drying and dehydration function, color screen operation interface for one click opening of food moments.

Key Features

Dual-Source Cyclonic Heat™ 360° Heat Circulation System

- **360° Cyclonic Heating:** Dual upper/lower 360 degree thermal circulation heat without flipping*, ensuring crispy surfaces and tender interiors;
- **NTC Precision Control:** High-precision NTC thermistor prevents oil over-carbonization in high-temp zones or uneven heating in low-temp zones.

SmartSteam 3X Infuse™ Crisp-Tender Technology

- **Crispy and juicy:** Achieves crispy yet juicy roasted chicken wings with 71.7% water retention* (outperforms top global brands).
- **More comprehensive nutrient retention:** Steam-protective film minimizes high-temperature vitamin damage, preserving more nutrients.

The large capacity of 7L & the golden ratio design of the structure

- Compared to other similar air fryer, it has a larger capacity of 7L, and is suitable for families of 3-5 people.
- Top 11 hurricane like fan blades noise reduction" and "spiral airflow optimization" has significantly improved the heating efficiency and uniformity of hot air circulation.

Wide area low-temperature fruit drying tech

- Customized development of intelligent temperature control dehydration program, simulating the Hetian tribute grade fruit drying process, precise constant temperature dehydration at 50-65°C, preserving the natural flavor of fruits and vegetables.
- 3 hours of rapid dehydration, with a shrinkage rate of over 80%.*

Specifications

Basket Capacity	7 L
Rated Power	2300 W
Temperature Range	50-200 °C
Preset Modes	12
Air Fryer Interior: Metal	Metal
Air Fryer appearance	Metal and plastic
Screen	LED
Machine Dimension	393x 309 x 332 mm
Pot coating	Nano oil-based ceramic coating

Features

 360° Dual-Source Cyclonic Heat™	 SmartSteam 3X Infuse™ Crisp-Tender Technology	 Nano-Ceramic Nonstick Coating	 7L Capacity
 12 Preset Modes	 Compact Size Space-Saving	 Wide-Range Low-Temp Dehydration Technology	 5 Layers of Protection for Zero Electrical Hazards

*Based on our in-house lab data.

*No need to flip: According to the internal laboratory data of Dreame, 10mm uniformly sliced white clay and French fries were tested, and the overall uniformity was good, with a color difference of no more than 1 degree, which is better than competitors, DQ2025042217111.

*Shrinkage rate of 71.7%: According to internal laboratory data from Dreame, compared to not using steam water replenishment function, report number: DQ2025042217109.

*3H dehydration rate 82.43%: obtained from internal laboratory data testing of Xunmi, report number: DQ2025042217110.
