Charging the NoiseFit Halo Smart Watch

Before using your NoiseFit Halo for the first time, charge the battery to its full capacity. Use the charging cable provided with the watch to charge. On a full charge, NoiseFit Halo can last up to 7 days.
Note: The battery life and time to fully charge your device may vary as per usage and other factors.

To charge NoiseFit Halo

- Plug the USB cable into a power adaptor. Plug the power adaptor into an electrical socket (Power adaptor not included).
- Place the magnetic charger on the magnetic charging points of the watch.
- While your watch is charging, the screen will show its progress.
- Once the battery is fully charged, remove the charger.

Power On

Press and hold the side button for a few seconds to turn on the watch.
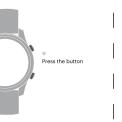

Power Off

Press and hold the side button for a few seconds, select Shut down and confirm to power off.

Waking Up the Watch

To preserve battery, the watch screen turns off when not in use. To turn the screen back on, you can wake up the watch by:
- Pressing the side button
- Turning on the Wrist sense

Press & hold

Press the button

Watch Navigation

The NoiseFit Halo smartwatch has a 1.43" AMOLED touch screen.
Navigate the watch by tapping on the screen, swiping side to side, up and down and pressing the side buttons.

Home Screen Navigation

The home screen is the watch face. From the home screen:
- Swipe left or right to access widget and shortcut.
- Swipe up to go to quick settings menu.
- Swipe down to check your message notifications.

Button Navigation

- Press the side button to turn on the watch display.
- Press the side button again to go to the main menu.

Setup

Before pairing, make sure that your smartphone and smartwatch are next to each other.
The app will ask for personal information such as height, weight and sex to calculate your stride length, distance covered, calorie burn rate.
- Turn on Bluetooth and the location on your mobile device.
- In your smartphone, download the NoiseFit app from the Play store or the App store and install it.
- Create an account or login using an existing account.
Note: Ensure that your smartphone is running on Android 4.4+ or iOS 9+ and is connected to mobile data or a Wi-Fi network.

Pair the Watch

- Open the NoiseFit app and allow the Bluetooth and GPS positioning to be turned on.
- Feed in your personal information and health goals in the app.
- Go to 'Pair Device' page in the app, select the watch name and MAC address and link the watch
Or you can follow these steps:
- Turn on the watch.
- Scan the QR code from the NoiseFit app on your phone.
- Select Pair with device and wait for it to pair.

Watch Features

Watch Face

You can switch between different watch faces in the watch, choose and download cloud-based or create your own watch faces in the NoiseFit app.

Changing the Watch Face

Give your watch a personalised style by changing or customising the watch face from the NoiseFit app or the watch.

On the Watch

Touch and hold the home screen. Swipe and choose from watch faces.

In the App

Go to watch faces, select the watch face of your choice and tap save to change the watch face.

Always On display

You can turn on the Always On display feature and choose the watch display between pointer and digital.

WATCH FEATURES

Activity

You can check your daily activity progress in terms of the steps taken, distance covered, calories burned and active time, after an extended period of wear. If you feel severe irritation, you must discontinue use of REM.

Heart Rate

NoiseFit Halo supports 24/7 heart rate tracking. You can select the measurement frequency in the app settings.
To measure your heart rate in real time, go to the Heart Rate monitor. You can view the all-day data on the watch and app.
Note: Make sure your arms and wrists are still and there is no space between your watch and the wrist.

Stopwatch

A stopwatch can be set on the watch. You can also set lap times in the stopwatch.

ACTIVITY
234 kcal
912 steps
3594 steps

HEART RATE
64 bpm

Sleep

You can view your most recent sleep record and sleep quality in various sleep stages in the NoiseFit app. The feature will measure the Rapid Eye Movement and Non-REM deep sleep, light sleep (deep and deep sleep), regulations do not REM.

SpO2

NoiseFit Halo supports viewing of the highest and lowest values of Blood Oxygen level of the day and the measurement data throughout the day. To measure your blood oxygen level real time, go to the Blood Oxygen monitor and let it measure.
Note: Make sure your arms and wrists are still and there is no space between your watch and the wrist.

Stress

NoiseFit Halo supports 24-hour stress level measurement and viewing of all-day measurement data.
To measure the stress levels real time, go to the Stress Level feature and wait for it to measure.
Note: Make sure your arms and wrists are still and here is no space between your watch and the wrist.

Breathe

The Breathe feature helps you adjust your breathing rhythm as per your convenience. You can choose from 3 speeds (fast, moderate and slow) to adjust your breathing duration. After the session, you can also see the change in the beats per minute.
Go to the Breathe feature, choose the time duration and speed and tap on start to enter the cycles of breathing and inhalation.
Note: During this period, if you swipe right or press a button, breathing is interrupted and you can choose to practice again or complete the cycle.

Device Information and Tips

Device Information

The NoiseFit Halo Smart Watch contains the following:
- 1.43" AMOLED Touch Screen
- Blood Oxygen Monitor
- Stress Monitor
- IP68 Waterproof
- 100 Sports Modes
- 22mm Quick Change Pins

The NoiseFit Halo smartwatch stores your activity data for up to 7 days in between the time you sync your watch to the NoiseFit app. Activity data includes your steps, distance, calories, active minutes, heart rate, sleep duration and workout data. We recommend syncing the watch to the App daily.

Tips

How do I update my NoiseFit Halo ?

You can update your NoiseFit Halo via the NoiseFit app. Go to My Profile and select Check for updates.

How do I find my watch's current firmware version?

You can find the watch's current firmware on the watch. Go to Settings on the NoiseFit app. Select Device information, choose Check for updates and update if any update is available.

How do I log my weight?

You can log in your weight the first time you setup your NoiseFit app. However, you can update the weight later via NoiseFit app. Go to My Profile, select Personal Information and change or update your weight. You can update birthday, height, country and email id as well.

How do I save battery?

Follow these simple steps to save NoiseFit Halo battery.
- Minimise the screen brightness
- Limit the notification you receive from the App.

How does the watch estimate how many calories have been burned?

NoiseFit Halo estimates how many calories you've burned based on the physical data you entered when you set up your account.

Regulatory and Safety Information

USA: Federal Communications Commission (FCC) Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

This device may cause harmful interference, and this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this 76 equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The NoiseFit Halo smartwatch is not a toy. The watch contains small components that could be a choking hazard and are not intended for use by small children or pets. Unless otherwise specified, devices and services are not a medical device and are not intended to diagnose, treat, cure or prevent any disease. We develop products and services to track daily activity and wellness information as accurately as possible. The accuracy of devices are not intended to be equivalent to medical devices or scientific measurement devices.

In some cases, prolonged use of products may cause skin irritation. Prolonged contact may contribute to skin irritation or allergies in some users. To reduce the possibility of irritation, keep the watch and watch band clean and dry. Don't wear it too tight and give your wrist a rest by removing the watch after an extended period of wear. If you feel soreness, tingling, numbness, burning or stiffness in your hands or wrists while or after wearing the watch, please immediately discontinue use.

Safety Instructions

- Do not disassemble the battery on your own.
- Do not expose NoiseFit Halo to extremely high or low temperatures.
- Charge the battery in a cool, ventilated room.
- Do not open, crush, bend, deform, puncture or shred secondary cells or batteries. In the event of a battery break or leak, prevent battery liquid contact with skin or eyes. If this happens, immediately flush the areas with water (DO NOT RUB THE EYE) or seek medical help.
- Keep the batteries out of children's reach and in a safe place to prevent danger.
- Do not place the battery in fire or water.
- Do not short-circuit. Short-circuiting may damage the battery. Short-circuiting can occur when a metallic object, such as coins, causes the direct connection of positive and negative terminals of the battery.

- Do not use your product in a sauna or steam room.
- Do not dispose of batteries in the fire as that may cause an explosion. Dispose of used batteries in accordance with your local regulations. Do not dispose it as household waste.
- Use only the charging cable supplied to charge the battery. Do not charge for more than 24 hours.
- Do not attempt to repair or maintain the watch yourself, service and maintenance should be performed by authorised technicians only. Any device failure should be referred to our after-sales service personnel.
- To prevent device damage, accessory damage and device failure, always protect the device against strong impact or shock.

Customer Support

If you experience any problem with the watch, it may be fixed by restarting your watch. For assistance, please reach out to us at support@gonoise.in
