Dreame Ecceluxe™ Slim Fully Automatic Espresso Machine

Compact Size, Master's Taste

18cm slim design as an A4 Paper size

An 18 cm slim body, 35% narrower than standard coffee machines*; Fully automated self-cleaning cycle — effortless maintenance; one-touch screen for five classic coffee varieties; precise dosing with 9-level low-noise grinding; 19 Bar powerful pump pressure, stable temperature control, and micro-pressure technology that refines the foam, creating a golden, velvety crema; dense milk foam from a 240 ml compact milk container ensures every cup is fresh without waste.

Key Features

Small in size. Big on performance

Easily fits into compact spaces and narrow kitchen corners. A slimmer body without compromising powerful performance. (Approximately 35% narrower than a standard coffee machine*).

No Tools, No Trouble

The compact brewing unit can be disassembled by hand in just 3 seconds*; minimal-groove design allows for one-rinse cleaning.

One-touch Screen for Five Coffee Varieties

Brew Espresso, Lungo, Flat White, Cappuccino, and Latte Macchiato at the touch of a button.

Precise Coffee Dose Control with 9-Level Low-Noise Grinding

The coffee grounds amount automatically adjusts to ensure stable extraction. 9-Level grind settings precisely match different roast levels, from rich dark roasts to floral light roasts. A unique soundproof chamber keeps grinding noise below 65dB.

Golden Silky-Smooth Extraction

19 Bar high pressure and intelligent temperature control pump up the rich, flavorful crema; micro-pressure technology refines the foam, creating a silky-smooth texture.

Velvety Milk Foam for a Perfect Cup Every Time

With one touch, enjoy dense and silky milk foam. The 240 ml compact milk frother can prepare 2-3 cups* of milk-based coffee drinks—perfectly portioned, fresh every time, with no waste.

Specifications

Product model	FCM30	Product weight	8.0 kg
Water Tank Capacity	1.5 L	Rated voltage	220-240 V
Milk Tank Capacity	240 mL	Rated frequency	50-60 Hz
Bean Hopper Capacity	150 g	Rated power	1420-1690 W
Brew Outlet Height	9-15 cm	Product dimensions	402.5 × 180 × 315 mm (L × W × H)
Water pump pressure	19 Bar

* The data is derived from our internal laboratory tests. Actual performance may vary depending on the environment and usage.

* The product appearance, structure, color, features, and other details shown in the promotional materials are for illustrative purposes only and may not accurately represent the product. Please refer to the actual product for accurate information.

* According to our internal lab data, this model is 35% narrower than its predecessor, which had a width of 25.0 cm.

* All parameters, capacities, cup counts, and temperature data are test results obtained under specific conditions. Actual performance may vary depending on environmental factors, recipes, and ingredients.

* Actual performance may vary depending on personal preferences, beverage type, milk quality, and other factors. The data is derived from our internal laboratory tests.

* Accessories and functions may differ slightly between production batches or regional versions. Please refer to the actual product received.

* Each machine undergoes water and coffee grinding tests before leaving the factory. Therefore, the presence of trace water stains or coffee grounds upon unboxing is normal and does not affect performance.
